3. Approval of financial statements. These financial statements were approved for issue by the Board of Directors at its meeting held on 22nd May, 2024. The financial statements for FY 2022-23 were approved by the Board on 19th May, 2023.

4. Revenue from operations for FY 2023-24 is stated after eliminating inter-segment transfers. Comparative figures for FY 2022-23 have been regrouped where necessary.

5. Material accounting policies

Basis of preparation. The financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013, on the historical cost basis except for certain financial instruments measured at fair value. All assets and liabilities are classified as current or non-current according to the operating cycle of twelve months.

Revenue recognition. Revenue from contracts with customers is recognised when control of the goods or services is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled. Revenue is measured net of returns, trade discounts and goods and services tax. Interest income is recognised using the effective interest method.

Property, plant and equipment. Items of property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Depreciation is provided on the straight-line method over the useful lives prescribed in Schedule II to the Act, except where technical assessment supports a different life. Capital work-in-progress is stated at cost.

Inventories. Inventories are valued at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Employee benefits. Contributions to provident fund are charged to the statement of profit and loss when due. The gratuity liability is determined by an independent actuary at each balance sheet date using the projected unit credit method; re-measurement gains and losses are recognised in other comprehensive income.

Income taxes. Current tax is measured at the amount expected to be paid under the Income-tax Act, 1961. Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and their tax bases, to the extent that it is probable that taxable profit will be available.

Provisions and contingent liabilities. A provision is recognised when the Company has a present obligation as a result of a past event and a reliable estimate can be made of the outflow. Contingent liabilities are disclosed unless the possibility of an outflow is remote.

Financial instruments. Financial assets are classified at initial recognition as measured at amortised cost, at fair value through other comprehensive income or at fair value through profit or loss. Trade receivables are assessed for impairment using the simplified expected credit loss approach.
